

LED T5 TUBE SERIES

LED Tube

Project Name:	Order Number:	Prepare by:	Note:	Date:	Type:

The MPVT5 LED tubes are a cost-effective and reliable solution for upgrading existing T5 fluorescent tubes to energy-saving LED technology. Designed for easy installation, these LED tubes come in 4000K and 5000K color temperatures, with options for bypassing or not bypassing the ballast. They operate on a 100-277 Vac input, are non-dimmable, and are rated for damp locations. Certified by both DLC and UL, these LED tubes are ideal for use in workshops, shopping malls, offices, commercial buildings, and other public or commercial spaces.

HIGHLIGHT

Energy-Efficient Upgrade

Replace existed fluorescent T5 tube with new T5 LED for improved efficiency.

Damp Location Rated

Suitable for use in enviroments where moisture is present
