

MFWW-6FT

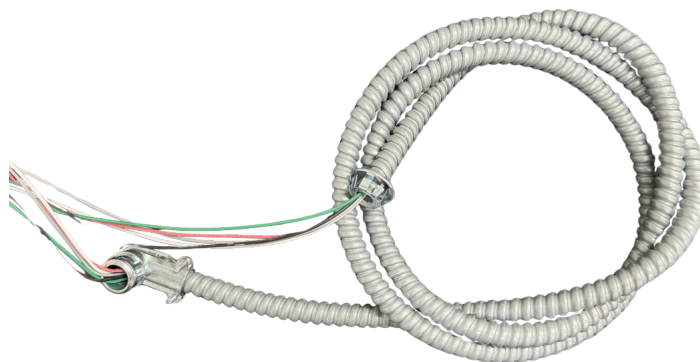

6ft Flex Whip

6ft Flex Whip

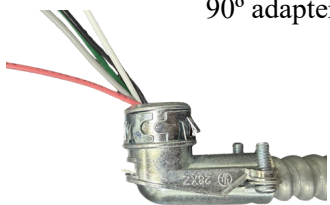

MW Lighting's MFWW-6FT Flex Whip is pre-assembled for quick and efficient installation, featuring a **6 ft flexible** metal conduit constructed from durable steel. It consists of **5 wires using 18 AWG** conductors and includes 6" wire leads with integrated screw-in connectors for secure and reliable connections. The whip utilizes color-coded wiring for easy identification and reduced installation errors, including power wires (green, black, white) and fixture control wires (pink, gray). UL Listed and built to meet industry standards, the MFWW-6FT provides a dependable solution for lighting and electrical connections.
