

3-Way Single Rocker Switch

Project Name:	Order Number:	Prepare by:	Note:	Date:	Type:

The MW Lighting 3-Way Single Rocker Switch offers convenient control of a single light fixture from two different locations—ideal for hallways, staircases, and large rooms. Designed for durability and smooth operation, this switch features a clean, modern appearance that complements any décor. Its 3-way function provides flexible lighting control, improving accessibility and energy efficiency in residential and commercial settings.

Unlike standard single-pole switches, the 3-way design allows users to operate lights from multiple points, adding both practicality and convenience. It's a simple upgrade that enhances everyday usability and lighting flexibility.

MSW-01-3W

HIGHLIGHT
