## CONSTRUCTION

Durable die-cast aluminum track heads with a clean white finish. Steel track rails provide structural stability and long-term reliability. Designed for efficient heat dissipation to ensure consistent performance and extended service life.

## OPTICS

Precision-engineered optics deliver focused, uniform light distribution. Adjustable track heads allow flexible beam direction for accent and task lighting applications with minimal glare.

## DRIVER

Integrated high-efficiency LED driver designed for stable output and long operating life. Supports smooth dimming performance (dimmer compatibility dependent on system configuration).

## MOUNTING

Surface-mounted track system. Includes two 3.3 ft track rails, one I-connector, and one floating canopy for straightforward installation. Compatible with standard track lighting layouts.

## LISTING

ETL listed. Suitable for indoor dry locations.

## WARRANTY

5 years manufacturer warranty, consult factory for more details. Terms and conditions may apply.

## HIGHLIGHT

- Complete all-in-one white track lighting set  
Includes track rails, connectors, canopy, and 6 adjustable LED track heads
- Clean, modern design suitable for residential and commercial spaces
- Adjustable light heads for precise accent and task lighting  
Energy-efficient LED technology reduces energy and maintenance costs
- Easy installation for new construction or retrofit applications  
Flexible track configuration options
