

Flange Kit Series

2x2/2x4/1x4

Flange Kit Series

The **Flange Kit Series** is designed to support recessed installation of LED panel lights into drywall or hard ceilings where standard T-grid ceiling systems are not available. These kits create a clean framed opening for **1x4, 2x2, and 2x4 panel fixtures**, providing a professional recessed appearance for commercial and architectural lighting applications. **Ideal for offices, schools, hospitals, retail stores, and other indoor environments.**

Key Features — Flange Kit Series
